Subject: FW: can you please send me the index for the FMC file (ID 9518)and for the Chem Waste (OR2353) file

Dave – I asked Brien Brown – (Booz Allen) to get you all of the files Carla left on her computer. Here is the site index – if you see anything on this list that looks interesting or helpful I can get it to you. I am also getting some ORD support on continuous phosphine monitoring – don't know what is out there. Also, everything we do/generate for this site has an on-going FOIA. So be sure to indicate Pre-Decisional FOIA Exempt where appropriate. I will try to go through Carla's emails and id the ones that may be most helpful to you and send you a summary of the task Monday or Tuesday. Thanks for your assistance!

Linda-

I apologize, the previous index I sent you for FMC was in an odd format and I see why you had issues finding anything as it should be in chronological order by folder. I generated a new index for this site and am sending it to you as attachment. I will pull folder 17A (14) #00051753 but I was not able to locate a Post Closure Plan with date

10/2012 or one close to that date. I did locate a Post Closure Plan with date of 10/17/2011. Let me know if that one will work, if not, please review the new Index I sent and see if you can find something that I may have missed.

Thanks,
Tatyana

Tatyana and Veronica. I am very confused. I am looking for a specific doc in the FMC index - post close plan for the ponds dated around 10/2012. It should be in 17a so I start at page 135 - why do I see docs down in this region of the index that go to file 5e, 16 etc.? It seems that the only way to find all 17a documents is to look over the whole 135 pages? I would like to get the 17a material in the barcode file 00051753 though as well as that 10/2012 post closure plan if you find that. Thanks!

Hello Linda,

Please see attachments for ID 9518 (FMC) and OR 2353 (Chem Waste) indexes.
